We affirm that:

We are certified public accountants licensed to practice in Michigan.

We further affirm the following material, "no" responses have been disclosed in the financial statements, including the notes, or in the Management Letter (report of comments and recommendations).

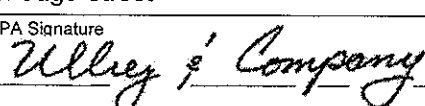

YES NO

Check each applicable box below. (See instructions for further detail.)

1. ☒ ☐ All required component units/funds/agencies of the local unit are included in the financial statements and/or disclosed in the reporting entity notes to the financial statements as necessary.
2. ☒ ☐ There are no accumulated deficits in one or more of this unit's unreserved fund balances/unrestricted net assets (P.A. 275 of 1980) or the local unit has not exceeded its budget for expenditures.
3. ☒ ☐ The local unit is in compliance with the Uniform Chart of Accounts issued by the Department of Treasury.
4. ☒ ☐ The local unit has adopted a budget for all required funds.
5. ☒ ☐ A public hearing on the budget was held in accordance with State statute.
6. ☒ ☐ The local unit has not violated the Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, or other guidance as issued by the Local Audit and Finance Division.
7. ☒ ☐ The local unit has not been delinquent in distributing tax revenues that were collected for another taxing unit.
8. ☒ ☐ The local unit only holds deposits/investments that comply with statutory requirements.
9. ☒ ☐ The local unit has no illegal or unauthorized expenditures that came to our attention as defined in the *Bulletin for Audits of Local Units of Government in Michigan*, as revised (see Appendix H of Bulletin).
10. ☒ ☐ There are no indications of defalcation, fraud or embezzlement, which came to our attention during the course of our audit that have not been previously communicated to the Local Audit and Finance Division (LAFD). If there is such activity that has not been communicated, please submit a separate report under separate cover.
11. ☒ ☐ The local unit is free of repeated comments from previous years.
12. ☒ ☐ The audit opinion is UNQUALIFIED.
13. ☒ ☐ The local unit has complied with GASB 34 or GASB 34 as modified by MCGAA Statement #7 and other generally accepted accounting principles (GAAP).
14. ☒ ☐ The board or council approves all invoices prior to payment as required by charter or statute.
15. ☒ ☐ To our knowledge, bank reconciliations that were reviewed were performed timely.

If a local unit of government (authorities and commissions included) is operating within the boundaries of the audited entity and is not included in this or any other audit report, nor do they obtain a stand-alone audit, please enclose the name(s), address(es), and a description(s) of the authority and/or commission.

I, the undersigned, certify that this statement is complete and accurate in all respects.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Village of Mattawan

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Village of Mattawan's (the Village) financial performance provides a narrative overview of the Village's financial activities for the fiscal year ended June 30, 2007. Please read it in conjunction with the Village's financial statements.

FINANCIAL HIGHLIGHTS

- The Village's total net assets increased by \$455,472 (7 percent) as a result of this year's activities. Net assets of the governmental activities increased by \$116,453, and net assets of the business-type activities increased by \$339,019.
- Of the \$7,418,317 total net assets reported, \$1,676,990 (23 percent) is available to be used to meet the Village's ongoing obligations to its citizens and customers.
- The General Fund's unreserved fund balance at the end of the fiscal year was \$365,776, which represents 59 percent of the actual total General Fund expenditures for the current fiscal year.

Overview of the financial statements

The Village's annual financial report is comprised of four parts: management's discussion and analysis, the basic financial statements, required supplementary information, and an optional section that presents combining statements for nonmajor governmental funds and internal service funds. The basic financial statements include two kinds of statements that present different views of the Village:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Village's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Village, reporting the Village's operations in more detail than the government-wide financial statements.
 - Governmental fund statements tell how general government services, like public safety, were financed in the short-term as well as what remains for future spending.
 - Proprietary fund statements offer short- and long-term financial information about the activities the government operates like a business, such as the sewer and water systems.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The financial statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Government-wide financial statements

The government-wide financial statements report information about the Village as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Village's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the Village's net assets and how they have changed. Net assets (the difference between the Village's assets and liabilities) is one way to measure the Village's financial health, or position.

Village of Mattawan
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

- Over time, increases or decreases in the Village's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Village, you need to consider additional nonfinancial factors such as changes in the Village's property tax base and the condition of the Village's capital assets.

The government-wide financial statements are divided into three categories:

- *Governmental activities* - Most of the Village's basic services are included here, such as police protection and general government. Property taxes and state grants finance most of these activities.
- *Business-type activities* - The Village charges fees to customers to help it cover the costs of certain services it provides. The Village's sewer and water systems are reported here.
- *Component units* - The Village includes other entities in its report - the Mattawan Downtown Development Authority and the Mattawan Local Development Finance Authority. Although legally separate, these "component units" are important because the Village is financially accountable for them.

Fund financial statements

The fund financial statements provide more detailed information about the Village's most significant funds - not the Village as a whole. Funds are accounting devices that the Village uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by state law and by bond agreements.
- The Village Council establishes other funds to control and manage money for particular purposes (like the Drug Forfeitures Fund) or to show that it is properly using certain taxes and other revenues (like motor fuel taxes collected for the street funds).

The Village has two kinds of funds:

1. *Governmental funds.* Most of the Village's basic services are included in governmental funds, which focus on (1) how cash, and other financial assets that can be readily converted to cash, flows in and out and, (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship between them.
2. *Proprietary funds.* Services for which the Village charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.
 - In fact, the Village's enterprise funds (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flows.
 - The Village uses internal service funds (the other type of proprietary fund) to report activities that provide services for the Village's other programs and activities. The Village's internal service funds are its DPW Building and Equipment Fund and Police Motor Pool Fund that manage the Village's fleet of vehicles and equipment.

FINANCIAL ANALYSIS OF THE VILLAGE AS A WHOLE

Net assets. Total net assets at the end of the fiscal year were \$7,418,317, an increase of 7 percent compared to the prior year. Of this total, \$2,586,807 is invested in capital assets and \$3,154,520 is restricted for various purposes. Consequently, unrestricted net assets were \$1,676,990, or 23 percent of the total.

Changes in net assets. The Village's total revenues were \$2,595,609 in the current fiscal year. Approximately 54 percent of the Village's revenues come from utility charges while property taxes and state shared revenue account for a combined 21 percent of total revenues.

The total cost of all the Village's programs, covering a wide range of services, totaled \$2,140,137. Approximately 62 percent of the Village's costs relate to the provision of utility services. Public safety and public works costs account for 17 percent and 11 percent of the Village's total costs, respectively.

Increase (decrease) in net assets	\$ 116,453	\$ 93,127	\$ 339,019	\$ (131,787)	\$ 455,472	\$ (38,660)

Governmental activities. Governmental activities increased the Village's net assets by \$116,453 in the current fiscal year compared to a \$93,127 increase in the prior year. While expenses increased by \$80,800 (11 percent), revenues increased by \$103,696. The increase in net assets in the current year is primarily related to additional revenue generated by a new millage for police protection (\$119,000).

The cost of all governmental activities this year was \$819,515. After subtracting the direct charges to those who directly benefited from the programs (\$56,645), and operating and capital grants and contributions (\$283,523), the "public benefit" portion covered by property taxes, state revenue sharing, and other general revenues was \$479,347.

Business-type activities. Business-type activities increased the Village's net assets by \$339,019 in the current year compared to a \$131,787 decrease in the prior year. While expenses increased by nearly \$100,000, charges for services increased by more than \$500,000. This year's increase in net assets came as a result of an increase in utility rates implemented in July 2006.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental funds. As of the end of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$904,957, an increase of \$64,103 in comparison with the prior year.

The General Fund is the chief operating fund of the Village. At the end of the fiscal year, unreserved fund balance was \$365,776 which represents 59 percent of the total actual General Fund expenditures for the current fiscal year. The fund balance increased by \$27,254 during the fiscal year compared to an increase of \$26,193 in the prior year. Expenditures, primarily public safety costs, increased by more than \$81,000 (15 percent); however, revenues also increased by more than \$80,000 due to an increase in property tax revenue related to a new special assessment that specifically finances police protection costs.

The Major Street Fund experienced an increase in fund balance of \$30,860 during the fiscal year because current year operating grants from the State exceeded the costs of maintaining the Village's major streets and no construction costs were incurred in the current year. The Major Street Fund has a fund balance of \$288,048 that is restricted for street preservation costs.

Proprietary funds. The Sewer Fund experienced an increase in net assets of \$133,377 as a result of an increase in utility rates implemented in July 2006. Total net assets are \$4,312,630 at year end of which \$843,849 is unrestricted.

The Water Fund experienced an increase in net assets of \$220,498 as a result of an increase in utility rates implemented in July 2006. Total net assets are \$1,715,501 at year end of which \$373,992 is unrestricted.

General Fund budgetary highlights

The Village amended the General Fund budget to increase total expenditures by \$18,009 to reflect anticipated cost increases.

Revenues were \$7,915 less than budgeted. General Fund expenditures were \$37,398 less than the amounts appropriated, which resulted in a \$29,483 positive budget variance, and a \$27,254 increase in fund balance compared to a budgeted \$2,229 decrease.

Village of Mattawan
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Capital assets and debt administration

Capital assets.

The Village's investment in capital assets for its governmental and business-type activities as of June 30, 2007, amounts to \$10,367,807 (net of accumulated depreciation). This investment includes a broad range of assets including land, buildings, police equipment, sewer and water facilities, and streets. The decrease in the Village's net investment in capital assets for the current fiscal year was \$186,471. The net investment in capital assets was increased \$20,612 by governmental activities and decreased \$207,083 by business-type activities.

	<u>Governmental activities</u>	<u>Business-type activities</u>	<u>Totals</u>
Land	\$ 28,000	\$ 34,749	\$ 62,749
Infrastructure	159,903	9,219,202	9,379,105
Buildings and improvements	765,151	-	765,151
Equipment and vehicles	<u>160,802</u>	<u>-</u>	<u>160,802</u>
Totals	<u>\$ 1,113,856</u>	<u>\$ 9,253,951</u>	<u>\$ 10,367,807</u>

The major capital asset event during the current fiscal year included the following:

- The DPW Building and Equipment Fund, an internal service fund, acquired a backhoe at a cost of \$51,100.

More detailed information about the Village's capital assets is presented in Note 5 of the notes to the basic financial statements.

Long-term debt.

At the end of the fiscal year, the Village had bonds payable outstanding in the amount of \$7,781,000 which represents a decrease of \$126,000 or 1.6 percent. These bonds are secured solely by specific revenue sources (i.e., revenue bonds).

More detailed information about the Village's long-term liabilities is presented in Note 8 of the notes to the basic financial statements.

Economic condition and outlook

The Village of Mattawan (2000 census population of 2,536) is primarily a residential community located in Van Buren County, Michigan. The village's proximity to the Kalamazoo Metropolitan Area and several major roadways, including Interstate 94, has helped spur recent commercial/industrial development. New commercial/industrial property and economic development activities are expected over the next few years that will be beneficial to the community as a whole.

The Village of Mattawan is committed to the goal of financial conservatism and, through this philosophy, the Village will develop plans to ensure economic development and infrastructure maintenance/development. The Village will continue taking progressive steps to ensure proper utilization of resources and reinvestment of revenues to ensure the Village is operating at its peak efficiency.

The Village's Water Fund, an enterprise operation, will experience increased expenditures to comply with the Environmental Protection Agency's regulations for arsenic levels in drinking water. The Village intends to build an arsenic removal plant that is expected to cost approximately \$2.5 million. The project will be financed through a federal grant and the issuance of bonds through the federal government.

Contacting the Village's financial management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the resources it receives. Questions regarding any information provided in this report or requests for additional financial information should be addressed to the Village Hall at 24221 Front Avenue, Mattawan, Michigan 49071.

INDEPENDENT AUDITORS' REPORT

Village Council
Village of Mattawan, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely-presented component units, each major fund, and the aggregate remaining fund information of the Village of Mattawan, Michigan, as of June 30, 2007, and for the year then ended, which collectively comprise the Village's financial statements, as listed in the contents. These financial statements are the responsibility of the Village of Mattawan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mattawan, Michigan, as of June 30, 2007, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have issued our report dated December 21, 2007, on our consideration of the Village of Mattawan, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information, as listed in the contents, are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Mattawan, Michigan's basic financial statements. The supplementary information, as listed in the contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Village of Mattawan, Michigan. The combining nonmajor fund and internal service fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Village of Mattawan
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Village of Mattawan, Michigan (the Village), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governmental units. The following is a summary of the significant accounting policies.

a) Reporting entity:

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the Village. The criteria established by the GASB for determining the reporting entity includes oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included.

Discretely-presented component units:

Local Development Finance Authority and Downtown Development Authority

Each component units' governing body is appointed by the Village Council. Separate financial statements for the component units have not been issued as management believes that these financial statements, including disclosures, contain complete information so as to constitute a fair presentation of each component unit.

b) Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by property taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c) Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources, measurement focus, and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) Measurement focus, basis of accounting, and financial statement presentation (continued):

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the Village.

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the Village, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Major Street Fund accounts for the resources of state gas and weight tax revenues that are restricted for expenditures related to maintaining and improving the Village's major streets.

The Village reports the following major enterprise funds:

The Sewer Fund accounts for the activities of the Village's sewage collection systems.

The Water Fund accounts for the activities of the Village's water distribution system.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to the same limitations. The Village has elected not to follow subsequent private-sector standards.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

Village of Mattawan
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

c) Measurement focus, basis of accounting, and financial statement presentation (continued):

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds relate to charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

d) Assets, liabilities, and net assets or equity:

i) Bank deposits - Cash is considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less from the date of acquisition.

ii) Receivables - In general, outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." No allowance for uncollectible accounts has been recorded as the Village considers all receivables to be fully collectible.

iii) Prepaid items - Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in the government-wide financial statements.

iv) Capital assets - Capital assets, which include property, equipment, and infrastructure assets (e.g., streets and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The Village has elected to use the prospective method of accounting for infrastructure assets whereby it will capitalize its infrastructure assets as acquired on or after July 1, 2003, as permitted by GASB No. 34.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	10 - 50 years
Equipment	3 - 20 years
Sewer and water systems	50 years

v) Compensated absences (vacation and sick leave) - It is the Village's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. A liability for unpaid accumulated vacation and sick leave has been recorded for the portion due to employees upon separation from service with the Village. Vested compensated absences are accrued when earned in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end.

Village of Mattawan
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

d) Assets, liabilities, and net assets or equity (continued):

vi) Fund equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

vii) Property tax revenue recognition - Property taxes are levied as of July 1 on property values assessed as of December 31 of the prior year. The billings are due on or before August 15, after which time the bill becomes delinquent and penalties and interest may be assessed by the Village. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Village levy date is July 1, and, accordingly, the total levy is recognized as revenue in the current year.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, department, and line-item. The legal level of budgetary control adopted by the Village Council is the functional level. All annual appropriations lapse at the end of the fiscal year. During the fiscal year ended June 30, 2007, the Village did not incur expenditures that were significantly in excess of the amounts appropriated.

NOTE 3 - CASH:

At June 30, 2007, cash is classified in the accompanying statement of net assets as follows:

Cash:	
Governmental activities	\$ 952,665
Business-type activities	1,211,550
Restricted cash -	
business-type activities	1,100,470
Component units	<u>210,470</u>
Total cash	<u>\$ 3,475,155</u>

At June 30, 2007, cash consists of the following:

Cash on hand	\$ 300
Deposits with financial institutions	<u>3,474,855</u>
Total	<u>\$ 3,475,155</u>

Deposits with financial institutions - State statutes and the Village's investment policy authorize the Village to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The Village's deposits are in accordance with statutory authority.

Village of Mattawan
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 3 - CASH (Continued):

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Village will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are uncollateralized. As of June 30, 2007, \$3,317,256 of the Village's bank balances of \$3,517,256 was exposed to custodial credit risk because it was uninsured. The Village believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Village evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

The Village maintains individual and pooled cash accounts for all of its funds and its component units. Due to use of pooled deposits, it is not practicable to allocate insured and uninsured portions of certain bank balances between the primary government and its component units.

NOTE 4 - RECEIVABLES:

Receivables as of year end for the Village's funds, are as follows:

<i>Fund</i>	<i>Accounts</i>	<i>Connection fees</i>	<i>Inter- governmental</i>	<i>Totals</i>
Governmental funds:

2038 - 2042	<u>175,000</u>	<u>20,781</u>	<u>403,000</u>	<u>9,571</u>
	<u>\$722,000</u>	<u>\$766,175</u>	<u>\$7,059,000</u>	<u>\$6,278,983</u>

NOTE 7 - RESTRICTED CASH:

As a condition of individual debt issues, the Village is required to maintain certain separate cash reserves. At June 30, 2007, all required reserves have been properly funded and are as follows:

Business-type activities:

Sewer Fund:

1998 Sewer Supply System revenue bonds:

Principal and interest redemption accounts	\$ 517,123
Bond reserve account	422,000
Repair and reconstruction account	<u>43,639</u>
	<u>982,762</u>

Water Fund:

1977 Water Supply System revenue bonds:

Principal and interest redemption account	12,682
Bond reserve account	51,002

1996 Water Supply System Junior Lien revenue bonds:

Principal and interest redemption account	30,568
Bond reserve account	<u>23,456</u>
	<u>117,708</u>
	<u>\$1,100,470</u>

Village of Mattawan
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES:

At June 30, 2007, the composition of interfund balances, as reported in the fund financial statements, is as follows:

<u>Fund</u>	<u>Receivables</u>	<u>Fund</u>	<u>Payables</u>
General	\$ 3,995	Sewer Water	\$ 1,905 <u>2,090</u>
			<u>3,995</u>
Sewer	25,045	DPW Building and Equipment General	17,944 <u>7,101</u>
			<u>25,045</u>
Water	9,013	General	<u>9,013</u>
DPW Building and Equipment	<u>8,159</u>	Sewer Water	5,753 <u>2,406</u>
			<u>8,159</u>
Totals	<u>\$ 46,212</u>	Totals	<u>\$ 46,212</u>

In 2002, the Sewer Fund, an enterprise fund, advanced \$86,810 to the DPW Building and Equipment Fund, an internal service fund, to finance the acquisition of a dump truck. The advance will be repaid in annual installments of \$18,303 that include interest at 2%, through 2007. The other interfund balances are the result of temporary cash flow assistance.

NOTE 9 - RISK MANAGEMENT:

The Village is exposed to various risks of loss to general liability, property and casualty, workers' compensation, and employee health and medical claims. The risks of loss arising from general liability up to \$2,000,000, building contents, workers' compensation, employee medical, and casualty are managed through purchased commercial insurance. For all risks of loss, there have been no significant reductions in insurance coverage from coverage provided in prior years. Also, in the past three years, settlements did not exceed insurance coverage.

NOTE 10 - CONSTRUCTION CODE ACT:

A summary of construction code act transactions for the year ended June 30, 2007, is as follows:

Revenues	\$ 1,770
Expenses	<u>(1,676)</u>
Excess of revenues over expenses	<u>\$ 94</u>

NOTE 11 - DEFINED CONTRIBUTION PENSION PLAN:

On October 1, 1996, the Village adopted a defined contribution pension plan, specifically referred to as the Village of Mattawan Employee Retirement Plan (the Plan). In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. Full-time employees are eligible to participate after satisfactorily completing the required probationary period of 90 days of employment. The Village contributes 3% of each qualified employee's earnings to the Plan. Qualified employees are required to contribute 3% of their earnings as a condition of participation in the Plan.

The Village's contributions for each employee (and interest allocated to the employee's account) are fully vested after five years of continuous service. Village contributions for, and interest forfeited by, employees who leave employment before five years of service are used to reduce the Village's current period contribution requirements. The Village is not a trustee of the Plan, nor is the Village responsible for investment management of plan assets. Michigan State statute assigns the authority to establish and amend benefit provisions to the Village Council.

The Village and the Plan participants each made their required contributions in the amount of \$10,559 for the year ended June 30, 2007.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Village Council
Village of Mattawan, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the discretely-presented component units, each major fund, and the aggregate remaining fund information of the Village of Mattawan, Michigan (the Village), as of and for the year ended June 30, 2007, and have issued our report thereon dated December 21, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village of Mattawan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village of Mattawan's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Village of Mattawan's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Village of Mattawan's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Village of Mattawan's financial statements that is more than inconsequential will not be prevented or detected by the Village of Mattawan's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Village of Mattawan's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village of Mattawan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Village Council
Village of Mattawan

Compliance

We have audited the compliance of the Village of Mattawan, Michigan (the Village), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2007. The Village's major federal program is its Community Facilities Loan Program. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the Village's management. Our responsibility is to express an opinion on the Village's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Village's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Village's compliance with those requirements.

In our opinion, the Village complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2007.

Internal control over compliance

The management of the Village is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Village's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control over compliance.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 (Continued)**

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.
